Response to Amendment

Applicants' request for a RCE filed on September 08, 2003 has been entered on October 21, 2003.

Therefore claims 1 and 9 as amended by the amendment and claims 2-4,6,9-13 24, and presently newly added claims 25-30 as recited in the amendment are currently pending in the Application.

Claims 5,7,and 14 –23 were previously cancelled.

Reasons for allowance

Claims 1-4,6,8-13 and 24 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims, (1,9 and 25) which include the steps of removing a part of the first conductive layer between the sidewall insulation layers.. to thereby form a recessed section of the first conductive layer and partially filling the recessed section between the sidewall insulation layers with a second conductive layer to form a gate electrode that includes at least the first conductive layer and the second conductive layer .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
